## Integration Symposium

On behalf of the School of Psychology at Fuller Seminary, we would like to extend a warm invitation to all who are interested in the topic of schizophrenia—researchers, clinicians, students, relatives, caregivers, policy makers, pastors and lay persons and the general public—to a very special symposium that will report on progress in schizophrenia research from around the globe, paying special attention to the place of religious communities in recovery, care and flourishing. This year's symposium will provide a wonderful opportunity to meet and hear from some of the world's leading experts and to deepen our understanding of the experience, the process and the treatment of schizophrenia.

### School of Psychology

135 North Oakland Avenue
